

A close-up, low-angle shot of a person's hand reaching down to touch the sole of a black and grey running shoe. The shoe is positioned on a dark, textured surface, possibly asphalt or a running track. The lighting is dramatic, with strong highlights on the hand and the shoe's sole, and deep shadows elsewhere. The background is a dark, textured surface, likely the same as the one the shoe is on.

INTRODUCTION

Terrain® Floorings is a global manufacturer, supplier and installer of made-to-order rubber flooring solutions.

Established in 1994, Terrain® Floorings is an ISO 9001 certified manufacturer and installer of resilient flooring solutions that deliver well-being and performance to our users. All Terrain® products are made to international specifications in our state-of-the-art facility in the UAE using raw materials from reputed European suppliers. Our commitment to quality and proven track record have made us the partner of choice for architects, engineers,

interior designers and flooring system providers across GCC and beyond.

Protecting the environment through rubber recycling is one of our key focus areas. Over the past 27 years, Terrain® has used over 150,000 tons of recycled rubber to create high quality flooring for sports arenas, playgrounds, gyms and more.

**OUR SOLUTIONS**

## TERRAIN® SPORT>FIT

for GYMS, FITNESS CENTERS, AND MORE.

Performance, comfort and safety are the cornerstones of great gym flooring, and this is exactly what the Terrain® Sport Fit range provides. Optimised specifically for fitness enthusiasts, Sport Fit consists of a wide range of products, from high-performance, impact and noise absorbing tiles to near-seamless rubber rolls, and more.

## TERRAIN® SPORT>PRO

for SPORTS COURTS, OUTDOOR PLAYGROUNDS AND MORE.

When performance matters above everything else, Terrain® Sport Pro is the ideal flooring solution. Optimised for both professional athletes and aspiring amateurs alike, products in this range help take sporting performance to the next level. Sport Pro includes a wide range of products including FIFA standard artificial grass for football pitches, ITF standard acrylic for tennis courts, flooring for basketball, padel tennis courts, and more.

## TERRAIN® SPORT>LITE

for SCHOOLS, KINDERGARTEN, INDOOR & OUTDOOR PLAY AREAS, AND MORE.

There is nothing more important than providing a safe environment in a children's play area. Flooring for play areas, both indoor and outdoor, need to be vibrant enough to attract a child's attention, while also providing enough cushioning to protect them from injury, if they fall. All Terrain® Sport Lite products are HIC tested at our in-house facility to ensure excellent impact absorption.

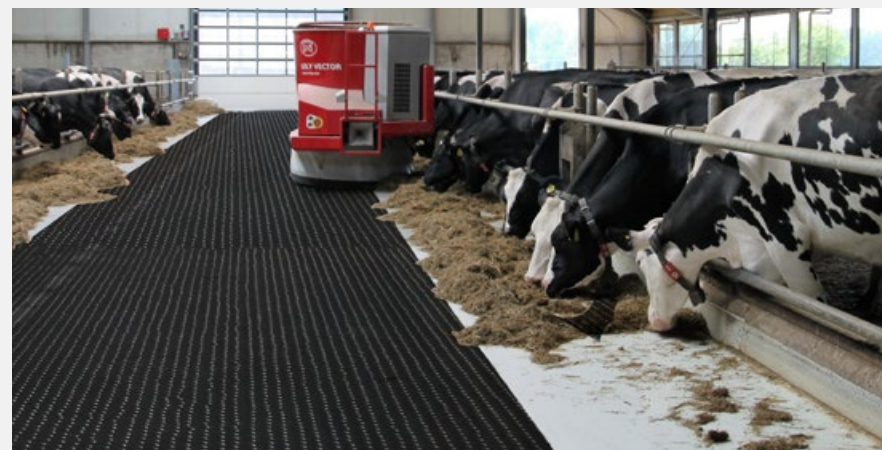

## TERRAIN® **ANIMAL & AGRI**

for EQUINE AND DAIRY FARMS,  
HORSE RACE COURSES, AND MORE.

Perfect for equine, dairy and agricultural farms, the Terrain® Animal & Agri range is a perfect blend of durability, usability and comfort. They are made using high quality materials to handle regular wear and tear, while being easy to use and clean.

## TERRAIN® **HOME**

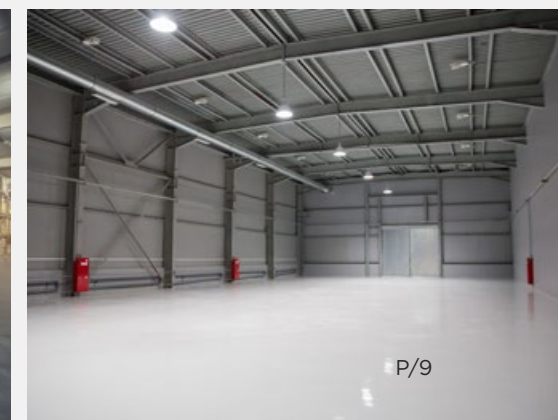

for HOME GYMS, WET/SNOW AREAS,  
GARDENS, AND MORE.

Make your home even more beautiful with the Terrain® Home range. From vibrant pavers for your garden to kitchen mats and comfortable flooring for your home gym, this range includes all that you need and more. The products are easy to install and can be a do-it-yourself project as well.

## TERRAIN® **INDUSTRIAL**

for WAREHOUSES, FACTORIES,  
GARAGES, AND MORE.

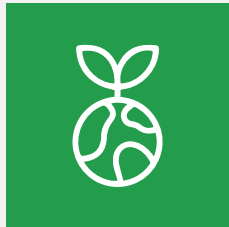

Factories and industries need flooring solutions that can hold up well to the rigors of daily use and is easy to install and maintain while being comfortable for employees. Products in the Terrain® Industrial range are an ideal fit for a wide range of industries.

TERRAIN® | **ECO**

Made with high quality recycled rubber granules & raw materials from reputed European manufacturers, Terrain® Eco products are comfortable, durable and provide excellent impact absorption.

Made using recycled rubber granules

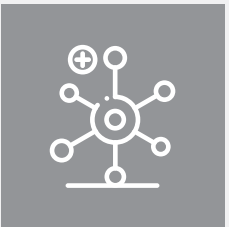

Resistant to extreme weather conditions

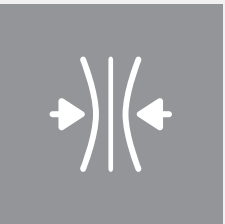

Easy to install, clean and maintain

TERRAIN® | **VULCAN**

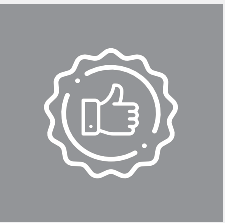

Made with superior quality NR-SBR (Natural and Styrene Butadiene Rubber), Terrain® Vulcan products are resistant to abrasion, while giving users great comfort and protection.

Chemically resistant to acids, alkalis and salts

Perfect for areas with heavy wear and tear

Has a low compression set and high resilience

# CRITICAL FALL HEIGHT

Safety is paramount on surfaces little children tread. For other uses too, these tiles ensure comfort under the feet. Let's look at some important reasons they make perfect solutions for playgrounds, childcare facilities and many other venues.

- They are versatile, durable and slip-resistant.
- Playground mats and tiles significantly reduce the risk of injuries.
- Easy installation allows for a simple 'Do It Yourself' option.
- They provide excellent drainage and easy cleaning.
- These tiles don't splinter so cannot be swallowed by children.
