RESILIENT IN EVERY SENSE

SPORT > FIT

BUILT TO PERFORM

FLOORING SOLUTIONS
FOR GYMS & FITNESS CENTERS

TERRAIN® | SPORT > FIT

If the flooring of a gym or workout space is not good enough, an exercise regimen will not work out in the long run.

Terrain® Sport > Fit products are optimised for the user's comfort and well-being, while protecting the subfloor underneath.

OUR COMMITMENT TO SUSTAINABILITY

Protecting the environment through rubber recycling is one of our key focus areas. Over the past 27 years, Terrain® has used over 150,000 tons of recycled rubber to create high quality flooring for sports arenas, playgrounds, gyms and more.

- /// We contribute to waste reduction and sustainability by using rubber which would otherwise go to landfills and dumps
- /// We source material from reputed European suppliers who are also committed to a green future
- /// We are constantly innovating and developing new techniques which help lower our carbon footprint

TERRAIN® | SPORT > FIT APPLICATIONS

Terrain Floorings is a global manufacturer, supplier and installer of made-to-order rubber flooring solutions.

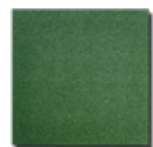

PRODUCTS

TERRAIN® | ECO

TERRAIN® | ECO INTERLOCK

These are by far the simplest and most easy to use tiles that can be installed, removed and reinstalled even by an unskilled artisan.

TERRAIN® | ECO SQUARE

These are simple square tiles which can be laid in any desirable pattern, and can be glued to a concrete floor for better adhesion. Tiles above 35 mm have plastic pins to keep them in place.

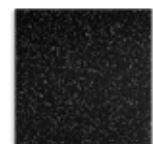

TERRAIN® | ECO FLEX PRO

For better cushioning and impact resistance, we have our specially developed range of tiles which are softer on the knees and reduce impact on children, if they are to fall.

TERRAIN® | ECO ELITE

For better cushioning and impact resistance, we have our specially developed range of tiles which are softer on the knees and reduce impact on children, if they are to fall.

TERRAIN® | ECO DUO

An amalgamation of tile and mat, Duo is for those who require a smoother finish. It gives you the advantage of a great looking product with better cushioning at an economical price.

TERRAIN® | ECO TURF

Wouldn't it be nice if grass flooring was soft, safe, portable and easy to maintain? Turf is easy to install and can be glued onto the floor or fixed with pins between the tiles.

TERRAIN® | VULCAN

TERRAIN® | VULCAN INFINITY

As the name suggests, the choices are infinite. Express what you desire with unlimited colours, combined with the resilience of a 7 mm vulcanized rubber tile.

TERRAIN® | VULCAN EXTREME

Specially made for toughness, these tiles stay solid even under extreme load. They absorb impact and noise well and are easy to install on various surfaces.

SEAMLESS & OTHER FLOORINGS

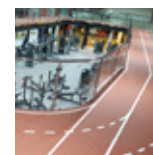

RUBBER UNDERLAY

EPDM

POLYURETHANE

ARTIFICIAL GRASS / ASTROTURF

TERRAIN® | ECO

Made with high quality recycled rubber granules and raw materials from reputed European manufacturers, Terrain® Eco products are comfortable, durable and provide excellent impact absorption.
