

TerraFit™– BALLISTIC BLOCK

ABOUT

Terrain Ballistic blocks are manufactured for use in indoor or outdoor shooting ranges. They are made from high density SBR recycled tire rubber. Available in universal options that should make a reliable option in just about any shooting range. These replaceable shooting blocks should help to improve safety standards to new levels at your range. Suitable for commercial and governmental, live fire houses, tactical shooting ranges and various other specialist solutions.

- Made of tough rubber particles that are bound by a MDI polyurethane binder.
- These tiles exhibit excellent capturing properties to prevent ricochets.
- The finished surface is smooth with no protruding edges.
- Usage: Indoor & Outdoor Shooting Ranges for walls, floors and walkways as well as bullet traps.
- Eco Friendly
- High resistance to wear under intensive use
- Offers protection even under unfavorable angles of impact
- Reliable protection from ricochet and bullet fragments
- Absorb the loud noise and reduce noise ricochet.
- Adds an elegant and professional look to your shooting range
