CORPORATE OVERVIEW

Flexible like rubber. Firm like rock.

- We are a part of the **ISMAT group** and been in the business of rubber since 1994 . Hence, we know rubber better than others .
- We at Terrain intend to provide a surface which is safe and healthy for our children to play on and also last longer than other surfaces.
- We ensure that our raw materials are sourced from premier manufacturers.
- Today, we are one of the largest manufacturer of crumb rubber products in the region with an annual output of 1,000,000 square meters of tiles.

It's more than what you see on the surface.

Now that isn't just a factor of our beautifully crafted rubber surface but also the material that goes in making them. It's recycled rubber! It is better suited to make non slip, low maintenance surface, that does not burden the natural resources.

Well, if that makes our rubber surface all the more attractive, wait until we impress you with our process in design, beautiful bright colors and range of rubber floorings.
